

Daily Staff Meeting

Tuesday, 20 March 1951

Mr. Reber reported that he was working on the study of CIA membership on committees. It was suggested by Mr. McConnel that this include those committees on which CIA sits as observer, as well as the ones in which the agency was actually represented as a member. It was also suggested that the administrative offices be queried as to their membership on committees.

It was reported that the Director will brief a sub-committee of the Senate Military Affairs Committee at 10:30 on 21 March, and will brief Senator McMahon and the Atomic Energy Commission at 10 on 22 March.

It was decided to call a meeting of the military members of the IAC for 10:30 on Thursday to discuss USSR sources of intelligence in Yugoslavia.

25X1 [redacted] requested a list of the key positions which the agency desires to fill from civilian or military executives.
